salmannoushad003@gmail.com ◇ linkedin.com/salman-t ◇ github.com/salmanz64

OBJECTIVE

Full-stack developer skilled in Flutter, React, Node.js, and FastAPI with experience in scalable backend APIs, CI/CD deployment, and database management (PostgreSQL/MongoDB). Looking to contribute to real-world software projects and learn in a growth-focused environment.

EDUCATION

Bachelor of Technology in Computer Science, APJ Abdul Kalam Technological University   2022 - 2026
Relevant Coursework: Data Structures, Algorithms, Database Management Systems, Operating Systems, Computer Networks

TECHNICAL SKILLS

Programming Languages	Python, Java, C, Dart
Mobile Development	Flutter, Riverpod, Getx, Firebase, FastAPI
Web Development	React, Css, Javascript, Node.js,Express.js
Databases	PostgreSQL, MongoDB, SQL
Tools	Git/GitHub, Insomnia, Vs Code

EXPERIENCE

Flutter Intern   Sept 2025 - Present
NexoTech Solutions   *Kerala, India*

- Built and optimized production-grade mobile applications using Flutter and Dart, focusing on responsive UI, performance, and seamless navigation.
- Implemented scalable application architecture using Riverpod for state management and Hive for offline persistence, improving maintainability and load performance.
- Collaborated with cross-functional teams using Git, code reviews, and Agile methodologies, ensuring efficient development and clean maintainable code.

PROJECTS

JobNexus – Hiring Application Management Platform (Flutter, FastAPI, PostgreSQL) Built a full-stack recruitment system with job posting, candidate tracking, status updates, and role-based authentication, enabling recruiters to efficiently manage applications in real time. *(GitHub)*

TuneStream – Music Streaming App (Flutter, FastAPI, PostgreSQL) Developed a Spotify-style audio streaming app with secure login, playlist management, offline caching, and smooth UI interactions.*(GitHub)*

SmartCanteen – Digital Ordering System (MERN Stack) Created a web-based canteen ordering system with live menu updates, cart, order tracking,payment Integration and admin dashboard for managing food items and orders.*(GitHub)*

EXTRA-CURRICULAR ACTIVITIES

- Solved 50+ LeetCode problems focused on improving data structures and Algorithms.
- Winner of a college-level hackathon, developing a working prototype under time constraints and collaborating with a cross-functional team.

CERTIFICATIONS

- FreeCodeCamp Certified in: Responsive Web Design, JavaScript Algorithms Data Structures,Front-End Libraries ,Backend Development And API and Scientific Computing with Python.
